1 IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

**PRODUCT NAME**
Epigrip C251 Phenolic Epoxy Primer/Finish - Base

**APPLICATION**
Paint.

**SUPPLIER**
Sherwin-Williams Protective & Marine Coatings
Tower Works
Kestor Street
Bolton
BL2 2AL
UK
+44 (0) 1204 521771
+44 (0) 1204 556479
hse.pm.emea@sherwin.com

**EMERGENCY TELEPHONE**
+44 (0) 1235 239670

2 HAZARDS IDENTIFICATION

**CLASSIFICATION (EC 1272/2008)**
- Physical and Chemical Hazards
  - Flam. Liq. 3 - H226
- Human health
  - Acute Tox. 4 - H312;Acute Tox. 4 - H332;Skin Irrit. 2 - H315;Eye Irrit. 2 - H319;Skin Sens. 1 - H317
- Environment
  - Aquatic Chronic 2 - H411

**LABEL IN ACCORDANCE WITH (EC) NO. 1272/2008**

**SIGNAL WORD**
Warning

**CONTAINS**
- Bisphenol F-Epichlorohydrin
- Xylene

**HAZARD STATEMENTS**
- H226 Flammable liquid and vapour.
- H312 Harmful in contact with skin.
- H315 Causes skin irritation.
- H317 May cause an allergic skin reaction.
- H319 Causes serious eye irritation.
- H332 Harmful if inhaled.
- H411 Toxic to aquatic life with long lasting effects.
Epigrip C251 Phenolic Epoxy Primer/Finish - Base

PRECAUTIONARY STATEMENTS
P273 Avoid release to the environment.
P280 Wear protective gloves/protective clothing/eye protection/face protection.
P305+351+338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P313 Get medical advice/attention.
P501 Dispose of contents/container to ...

SUPPLEMENTARY PRECAUTIONARY STATEMENTS
P210 Keep away from heat/sparks/open flames/hot surfaces. - No smoking.
P233 Keep container tightly closed.
P240 Ground/bond container and receiving equipment.
P241 Use explosion-proof electrical/ventilating/lighting/.../equipment.
P242 Use only non-sparking tools.
P243 Take precautionary measures against static discharge.
P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
P264 Wash ... thoroughly after handling.
P271 Use only outdoors or in a well-ventilated area.
P272 Contaminated work clothing should not be allowed out of the workplace.
P302+352 IF ON SKIN: Wash with plenty of soap and water.
P303+361+353 IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.
P312 Call a POISON CENTER or doctor/physician if you feel unwell.
P321 Specific treatment (see … on this label).
P322 Specific measures (see … on this label).
P332+313 If skin irritation occurs: Get medical advice/attention.
P333+313 If skin irritation or rash occurs: Get medical advice/attention.
P337 If eye irritation persists:
P362 Take off contaminated clothing and wash before reuse.
P363 Wash contaminated clothing before reuse.
P370+378 In case of fire: Use … for extinction.
P391 Collect spillage.
P403+235 Store in a well-ventilated place. Keep cool.

ENVIRONMENT
The product contains a substance which is toxic to aquatic organisms and which may cause long term adverse effects in the aquatic environment.

PHYSICAL AND CHEMICAL HAZARDS
The product is flammable, and heating may generate vapours which may form explosive vapour/air mixtures.

HUMAN HEALTH
In high concentrations, vapours and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea. Preparation contains an epoxy resin, which may cause sensitisation and development of allergy. May cause sensitisation by skin contact. Harmful by inhalation and in contact with skin. The product is irritating to eyes and skin.

COMPOSITION COMMENTS
The data shown are in accordance with the latest EC Directives.

4 FIRST-AID MEASURES

GENERAL INFORMATION
General first aid, rest, warmth and fresh air. Never give liquid to an unconscious person. Get medical attention if any discomfort continues.

INHALATION
Remove victim immediately from source of exposure. Keep the affected person warm and at rest. Get prompt medical attention. Place unconscious person on the side in the recovery position and ensure breathing can take place. If respiratory problems, artificial respiration/oxygen.

INGESTION
DO NOT induce vomiting. Get medical attention immediately. Never give liquid to an unconscious person. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

SKIN CONTACT
Immediately remove contaminated clothing. Wash off promptly and flush contaminated skin with water. Promptly remove clothing if soaked through and flush skin with water.

EYE CONTACT
Make sure to remove any contact lenses from the eyes before rinsing. Immediately flush with plenty of water or eyewash solution for up to 10 minutes. Get medical attention if any discomfort continues.

5 FIRE-FIGHTING MEASURES

EXTINGUISHING MEDIA
Do not use water jet as an extinguisher, as this will spread the fire. Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Cool containers exposed to flames with water until well after the fire is out. Avoid breathing fire vapours. When heated and in case of fire, harmful vapours/gases may be formed.

PROTECTIVE MEASURES IN FIRE
Self contained breathing apparatus and full protective clothing must be worn in case of fire.

6 ACCIDENTAL RELEASE MEASURES
Epigrip C251 Phenolic Epoxy Primer/Finish - Base

PERSONAL PRECAUTIONS
Wear protective clothing as described in Section 8 of this safety data sheet. Warn everybody of potential hazards and evacuate if necessary. Solvent vapours may form explosive mixtures with air. Extinguish all ignition sources. Avoid sparks, flames, heat and smoking. Ventilate.

ENVIRONMENTAL PRECAUTIONS
Do not discharge into drains, water courses or onto the ground. Spillages or uncontrolled discharges into watercourses must be IMMEDIATELY alerted to the Environmental Agency or other appropriate regulatory body.

SPILL CLEAN UP METHODS
Keep combustibles away from spilled material. Absorb in vermiculite, dry sand or earth and place into containers. Wash thoroughly after dealing with a spillage. Store in a cool and well-ventilated place. Waste is classified as hazardous waste. Disposal to licensed waste disposal site in accordance with the local Waste Disposal Authority.

7 HANDLING AND STORAGE

USAGE PRECAUTIONS
May cause skin irritation/eczema. May cause sensitisation by skin contact. Risk of vapour concentration on the floor and in low-lying areas. Solvent vapours may form explosive mixtures with air. Prevent creation of flammable or explosive concentrations of vapour in air and avoid concentrations higher than the workplace exposure limits. Eliminate all sources of ignition. Use non sparking handtools and explosion-proof electric equipment. Keep containers tightly closed. Keep away from heat, sparks and open flame. Required air quantity to ventilate to 10% of the LEL. 47 m³/lt. The above figure is given as a guide only. Ventilation and extraction must be arranged so that all parts of the workplace are properly ventilated i.e. there are no recesses or pockets where high vapour concentrations are allowed to build up. If there is any doubt about the adequacy of the ventilation/extraction of solvent vapour, regular monitoring of confined workplaces should be carried out. Do not use in confined spaces without adequate ventilation and/or respirator. Avoid contact with skin and eyes. Avoid inhalation of vapours and spray mists. Do not eat, drink or smoke when using the product. Wear protective clothing as described in Section 8 of this safety data sheet. Never use pressure to empty; the container is not a pressure vessel. Keep in original container. Good housekeeping standards, regular safe removal of waste materials and regular maintenance of spray booth filters will minimise the risks of spontaneous combustion and other fire hazards. Contaminated rags and cloths must be put in fireproof containers for disposal. The following guide weight indicators are given to enable users to carry out manual handling assessments. 5 litre can = 7.6 kg.

USAGE DESCRIPTION
Preparation contains an epoxy resin, which may cause sensitisation and development of allergy.

STORAGE PRECAUTIONS
Observe the label precautions. Store in closed original container at temperatures between 5°C and 25°C. Store in a cool and well-ventilated place. Keep away from sources of ignition - No smoking. Containers which are open should be properly re-sealed and kept upright to prevent leakage. Flammable/combustible - Keep away from oxidisers, heat and flames. Avoid contact with oxidising agents. Keep away from heat, sparks and open flame. Store in accordance with local regulations.

STORAGE CLASS
Flammable liquid storage. Store in accordance with local regulations.

8 EXPOSURE CONTROLS/PERSONAL PROTECTION

<table>

</table>

WEL = Workplace Exposure Limit.

INGREDIENT COMMENTS
SUP = Supplier's recommendation.

PROTECTIVE EQUIPMENT
PROCESS CONDITIONS
Provide eyewash station.

ENGINEERING MEASURES
Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded. All handling to take place in well-ventilated area.

RESPIRATORY EQUIPMENT
Respiratory protection must be used if air contamination exceeds acceptable level. Wear full face mask supplied with: Gas cartridge suitable for organic substances. In case of inadequate ventilation, use air-supplied full-mask. Do not use in confined spaces without adequate ventilation and/or respirator.

HAND PROTECTION
The most suitable glove must be chosen in consultation with the gloves supplier, who can inform about the breakthrough time of the glove material. Be aware that the liquid may penetrate the gloves. Frequent change is advisable. Barrier cream applied before work may make it easier to clean the skin after exposure, but does not prevent absorption through the skin.

EYE PROTECTION
Wear splash-proof eye goggles to prevent any possibility of eye contact.

OTHER PROTECTION
Wear appropriate clothing to prevent any possibility of skin contact. Take precautionary measures against static discharges.

HYGIENE MEASURES
DO NOT SMOKE IN WORK AREA! Wash hands at the end of each work shift and before eating, smoking and using the toilet. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink or smoke.

SKIN PROTECTION
Wear appropriate clothing to prevent any possibility of skin contact. Wear suitable protective clothing as protection against splashing or contamination.

10 STABILITY AND REACTIVITY
Epigrip C251 Phenolic Epoxy Primer/Finish - Base

STABILITY
No particular stability concerns. Follow precautions for safe handling described in this safety data sheet. Stable under the prescribed storage conditions.

CONDITIONS TO AVOID
Avoid heat, flames and other sources of ignition. Avoid contact with strong oxidisers.

MATERIALS TO AVOID

HAZARDOUS DECOMPOSITION PRODUCTS
Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours.

11 TOXICOLOGICAL INFORMATION

TOXICOLOGICAL INFORMATION
No information available.

GENERAL INFORMATION
Prolonged and repeated contact with solvents over a long period may lead to permanent health problems.

INHALATION
In high concentrations, vapours may irritate throat and respiratory system and cause coughing. Harmful by inhalation. Vapours have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Contains organic solvents which in case of overexposure may depress the central nervous system causing dizziness and intoxication.

INGESTION
Gastrointestinal symptoms, including upset stomach. May cause stomach pain or vomiting. May cause nausea, headache, dizziness and intoxication.

SKIN CONTACT
Acts as a defatting agent on skin. May cause cracking of skin, and eczema. May cause sensitisation by skin contact. Irritating to skin. Harmful in contact with skin.

EYE CONTACT
Irritating and may cause redness and pain.

HEALTH WARNINGS
Preparation contains an epoxy resin, which may cause sensitisation and development of allergy.

12 ECOLOGICAL INFORMATION

ECOTOXICITY
There are no data on the ecotoxicity of this product. The product contains substances which are toxic to aquatic organisms and which may cause long term adverse effects in the aquatic environment.

BIOACCUMULATION
No data available on bioaccumulation. The product contains potentially bioaccumulating substances.

WATER HAZARD CLASSIFICATION
WGK 2

13 DISPOSAL CONSIDERATIONS

GENERAL INFORMATION
Waste, residue, empty containers, discarded work clothes and used disposable towels must be collected in designated receptacles, labelled with content. Rags and the like, moistened with flammable liquids, must be discarded into designated fireproof bucket. Waste is classified as hazardous waste. Disposal to licensed waste disposal site in accordance with the local Waste Disposal Authority.

DISPOSAL METHODS
Contact specialist disposal companies. Dispose of waste and residues in accordance with local authority requirements. Make sure containers are empty before discarding (explosion risk). Absorb in vermiculite or dry sand and dispose of at a licenced hazardous waste collection point.

## 15 REGULATORY INFORMATION

**NATIONAL REGULATIONS**

## 16 OTHER INFORMATION

**GENERAL INFORMATION**

Restricted to professional users. Only trained personnel should use this material.

**REVISION DATE** 21/05/2013

**REV. NO./REPL. SDS** 1.1

**GENERATED**

**RISK PHRASES IN FULL**

R10 Flammable.
R20/21 Harmful by inhalation and in contact with skin.
R36/38 Irritating to eyes and skin.
R38 Irritating to skin.
R43 May cause sensitisation by skin contact.
R51/53 Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
HAZARD STATEMENTS IN FULL

H226    Flammable liquid and vapour.
H312    Harmful in contact with skin.
H315    Causes skin irritation.
H317    May cause an allergic skin reaction.
H319    Causes serious eye irritation.
H332    Harmful if inhaled.
H411    Toxic to aquatic life with long lasting effects.

DISCLAIMER
