

Macropoxy™ P300

Potable water pipe and tank lining solution

Macropoxy™ P300 is a 100% solids potable water coating solution suitable for use on structures containing drinking water intended for public supply. Suitable for drinking water tank and pipe linings, Macropoxy™ P300 is a solvent free, high-build epoxy resin coating system, which is moisture tolerant and rapid curing.

Features

- Hard, smooth water resistant consistency.
- Application
- The cured lining will not affect the pH of drinking water.
- Approvals
- High Solids

Benefits

- Provides long term durability.
- Can be applied over a wide temperature range, using dedicated application equipment.
- Can be used in soft water regions where cement mortar linings might cause unacceptable increases in the pH of the water supply. Macropoxy™ P300 will not affect taste.
- Approved to Water Supply (Water Quality) Regulations 25 (1). DWI approved as a site and factory applied coating for potable water retaining structures, ref: DWI 56.4.253. Approved to Water Regulations Advisory Scheme Directory ref: 05212526.
- 100% solids volume.

Support and Service

We've worked hard to become a leader in the protective and marine coatings industry. Developing and delivering unique coatings solutions which ultimately work for you. Whether you require better durability, faster application or environmental compliance, our revolutionary products and technologies deliver results.

Coupled with the industry's largest distribution network, our teams of dedicated experts are on hand to offer you the support you need when you need it. From bespoke specifications, site surveys or technical assistance, our team of experts offer you complete backup at all stages of your project.

The Sherwin-Williams Difference

By putting our customers first, we know that the innovation, imagination, research and development we put into each and every product will be worth it. You are at the centre of our thinking wherever we operate around the world across five continents whether it is advice, specification or on-site inspection. You are the reason we exist. This is the Sherwin-Williams difference.
